I believe, that by now you are already acquainted with the activity of the ICA-Information and Coordination Service. It is my purpose to inform you about its future aim. We should like to summarize as complete a list of Societies and/or Commissions as possible which may exist in yours or other country and you know of. Of course, their work has to be in some way, though even remotely, connected with some branches of acoustics.

In this sense I ask for your cooperation. I am enclosing the List of Societies and Commissions for you to see which we are already working with and should appreciate very much your help in enlarging it by those which are not yet enlisted by ICA and you know of or are in touch with. Please, write us their names and addresses, as well as the names of their president, adding a note about the line of work. This information will enable the President of ICA, Prof. I. Malecki, to contact those new societies in order to arouse their interest in international cooperation on informations of acoustical events and in the work of ICA.

It will be much appreciated to get your answer to the date of July 15, 1970, to be able to add the new addresses to our List prepared for the circulation of further issue of acoustical events.

Enclosure.

Sincerely yours

Felix Kolmer
